

OUR RANGE...

Our premium quality roof membrane coatings are available in a range of preparation, primers, sealers and top coat membranes.

RUST CONVERTER

Rust converter is an environmentally friendly, water-based effective rust converter designed to treat rust and prepare the surface for priming. It is a fast and convenient way to treat rusted metal surfaces where traditional rust removal methods are not practical.

Bucket Size: 15L Cube

SURFACE TREATMENT

Surface treatment is a preventative treatment that inhibits the growth of moss, lichen, fungi, or organic matter that occurs on various substrates and surfaces. Surface Treatment is a leave on treatment for concrete and terracotta tile roof surfaces.

Bucket Size: 15L Cube

RIDGEFLEX

Ridgeflex has been specially designed for use in construction applications and is trowel applied to re-point concrete or terracotta ridge capping.

Bucket Size: 10L

ROOF SEALER

Roof Sealer is a water based 100% acrylic sealer primer supplied as a milky white substance that dries to a clear film. Roof Sealer can be used on a variety of substrates including concrete roof surfaces, unglazed terracotta roof tiles, along with metal, zincalume and Colorbond® roof surfaces.

Bucket Size: 20L

HIGH BUILD SEALER

High Build Sealer is a water based 100% acrylic sealer primer for sealing extremely porous tile roof surfaces. High Build Sealer is not suitable on previously painted surfaces.

Bucket Size: 20L

CONCENTRATE SEALER

Concentrate Sealer is a 50/50 concentrated sealer for use with our Rooflex standard range and is suitable for concrete, metal & Colorbond® roof surfaces. Once diluted, Concentrate Sealer makes up a total of 40L of roof sealer.

For a medium build sealer, add 10L of water to 20L Concentrate Sealer.

Concentrate Sealer must not be used undiluted.

Bucket Size: 20L

TERRACOTTA PRIMER

Terracotta Primer is a water based 100% acrylic sealer primer providing excellent adhesion to glazed, semi-glazed and unglazed Terracotta roof tiles.

Bucket Size: 20L

ANTI-CORROSIVE METAL PRIMER

Anti-Corrosive Metal Primer is a water-based acrylic primer with flash rust inhibitor for metal surfaces. Anti-Corrosive Metal Primer provides a suitably primed surface for over coating with one of our topcoats to inhibit rust growth.

Bucket Size: 20L

ROOFLEX MEMBRANE

Rooflex our standard range is available in a gloss finish and in a wide range of colours, including Colorbond® and is a decorative coating that can be brushed, rolled, or sprayed to the following surfaces:

- Concrete and Terracotta Roof Tiles
- Metal Roof Surfaces including Colorbond®
- Fibro Cement Sheeting

Bucket Size: 20L

ROOFLEX PLUS+ MEMBRANE

Rooflex Plus+ our premium range is a water based 100% acrylic coating ideal for Australia weather conditions and is recommended and used as a protective coating that can be brushed, rolled, or sprayed to the following surfaces:

- Concrete and Terracotta Roof Tiles
- Metal Roof Surfaces including Colorbond®
- Fibro Cement Sheeting

It provides a durable colour fast coating system that significantly reduces dirt accumulation, pollution, and chemical attack.

Rooflex Plus+ is available in both gloss and satin finishes.

Bucket Size: 20L

ROOFLEX HEAT REFLECTIVE MEMBRANE

Rooflex Heat Reflective uses technology to reflect the sun's radiation away from the roof surface and is recommended and used as a protective coating that can be brushed, rolled, or sprayed to the following surfaces:

- Concrete and Terracotta Roof Tiles
- Metal Roof Surfaces including Colorbond®
- Fibro Cement Sheeting

It provides a durable colour fast coating system that significantly reduces dirt accumulation, pollution, and chemical attack.

Rooflex Heat Reflective is available in both gloss and satin finishes.

Bucket Size: 20L

CLEAR PROTECTIVE TOP COAT

Clear Protective Top Coat is a water based 100% acrylic clear protective final top coat that can be used over our membranes to improve gloss and colour retention.

It is suitable for a variety of substrates including concrete roof surfaces, terracotta roof tiles, as well as metal, zincalume and Colorbond® roof surfaces.

Application extends the material warranty of our topcoats by two (2) years.

Bucket Size: 20L
